

Joeniño Cainday

• AGENTIC AI ENGINEER • SOFTWARE ENGINEER • OPERATIONS RESEARCHER • TECHNICAL SPECIALIST

Computer Scientist specializing in computational modelling, optimization, and intelligent systems. Designs and builds data-driven decision tools, full-stack software, and autonomous multi-agent AI — turns research and workflows into deployable, production-grade systems.

CORE EXPERTISE

- Artificial Intelligence & Machine Learning
- Software Engineering
- Operations Research
- Internet of Things
- Workflow Automation
- Ethical Hacking & Cybersecurity
- Geographic Information Systems

LANGUAGES

- Python
- TypeScript · JavaScript
- C++ · C# · Java
- Dart · R

FRONTEND

- Svelte · React · Next.js
- Tailwind · HTML/CSS · LaTeX
- Three.js · p5.js · ml5.js · PWA
- Flutter · MapLibre · Vite

BACKEND & DATABASES

- Node.js · Express · Deno
- MongoDB · MySQL · Redis
- Firebase · systemd · ChromaDB
- REST APIs · Webhooks · n8n

AI / ML

- PyTorch · OpenCV · MediaPipe
- Pandas · NumPy · Matplotlib
- OR-Tools · Ollama · vLLM
- Google ADK · Google AI Studio
- Pi Agent · LangGraph · LangChain
- DeepAgents · GraphRAG

INFRA & TOOLS

- Docker · JOSM · Git · Linux
- Google Cloud · Google Workspace
- Vercel · Bash · Selenium · Blender
- Podman · Microsandbox

HARDWARE

- Raspberry Pi · Arduino

100+ Projects 50+ Tech Stacks 10+ Yrs Coding L2 TopCIT

EDUCATION

University of Science and Technology of Southern Philippines
Bachelor of Science in Computer Science — Computational Modelling & Simulation
2022 – 2027* · 5th Year ♦ **Dean's Lister**

Iligan Computer Institute
TVL ICT — Web Development · Grade 12
2021 – 2022 ♦ **High Honor · DOST Top 20**

Capitol University
STEM — Programming · Grade 11
2020 – 2021 ♦ **Highest Honor · Student of the Year**

PROFESSIONAL EXPERIENCE

Agentic AI Intern · *MeldCX* · Jul – Aug 2026

- Engineered a Multi-agent AI harness on the Pi SDK with LangGraph featuring specialized concurrent subagents — architect, programmer, reviewer, researcher — plus CLI tools and MCP servers.
- Implemented context, session & memory management: observational memory, RAG-based recall, and resumable session-persistent subagents.
- Implemented human-in-the-loop controls (plan/task tracking, auto-reprompt on failure, test-and-fix cycles) and guardrails (confidential system-prompt protection, config access scanning, sandboxed/VPN-secured execution).
- Extended agents beyond software to control IoT/hardware in real time, with added ASR and TTS, web search & scrape, and computer-vision QA capabilities.

Front-End Developer Intern · *Autofy.ai* · Mar – Apr 2024

- Agile development of animated interfaces for the core automation platform.

VOLUNTEERING

Asst. Core Lead — CS³ · *Computer Science Student Society USTP-CDO* · Aug 2023 – Jul 2025

- Co-led academic org operations, research, competitions, and departmental activities.

GIS Developer & CS Lead · *Google Developer Groups USTP-CDO* · Aug 2022 – Jul 2024

- Agile development of a campus navigation system deployed institution-wide.
- Assisted workshops, events, and tech department roadmap.

SELECTED PROJECTS

Piflow — Multi-Agent AI Coding Harness vLLM · Ollama · Podman · Python · Pi	HEISCHED — Scheduling Constraints Solver Svelte 5 · Python · OR-Tools · CP-SAT
TrailMap v2 — 3D Campus Map MapLibre · Three.js · Svelte 5 · GIS	Trail AI — Student Handbook RAG Chatbot Ollama · ChromaDB · Gemma 2B · Next.js

AWARDS & RECOGNITION

- ♦ **Arctech — 3rd Place, Digi Agri Hacki** — DA national hackathon, 5th → 3rd (Final), Quezon City.
- ♦ **Hack4Gov CTF — Regional Champion & National Top 10** — Team Leader; 17th nat'l, 10th indiv.
- ♦ **Level 2 TopCIT — 2023** — South Korean IT competency exam, USTP CDO CS Dept.
- ♦ **DOST iMake.WeMake — Top 20 Finalist** — AR mask & temp. monitor via ESP32CAM.
- ♦ **DevCon Line Follower Robot — Champion** — Fastest w/ recovery algorithm; 1st across all runs.
- ♦ **MathSci 2022 — 2nd Runner-Up** — Arduino trash-classification AI, ICI.

CERTIFICATIONS

- ♦ **LangGraph Foundation — LangChain Academy** — Cert ID smhpcvizvx · Valid thru Aug 2028.
- ♦ **LangChain Foundation — LangChain Academy** — Cert ID kxdm7hiccy · Valid thru Aug 2028.
- ♦ **Networking Basics — USTP-CDO** — 22 hrs · Instr. Junar Landicho · Dec 2024.
